

SmartRigging®

The Intelligent Choice

SR furling head stay

www.smartrigging.com • info@smartrigging.com

After extensive engineering and testing SmartRigging can produce PBO head stays for hydraulic or hand furling units (produced by the leading company's in the world.) The range starts at SR 9 (dash -22) till SR 250 (dash -540). Let SmartRigging provide you with the best option.

This light weight head stay will dramatically improve the sailing performance for new build and refit yachts.

Our special designed Smart size end terminal is put in a special adapter which will fit in to the furler units without any alterations.

We protect the cable from chafe with a special smooth cover, this will guarantee no internal chafe and a long life span.
